

# Barbarian Swimmers

Date : August 2003

## **GUIDELINES FOR TEACHERS.**

The Barbarian Swimming Club values all the hard work done by its teachers. In order to maintain the high standards, which we set for ourselves, we have compiled a list of guidelines to which we feel we should all adhere. These guidelines set down a code of practice that provides a professional basis within which we can carry out the aims of the club. That is "the promotion of and instruction in the arts of swimming, personal survival, life saving and diving....." We would ask that all teachers follow the guidelines whilst teaching at the club.

### **Guidelines**

1. Please do not wear outdoor shoes on the pool-side.
2. Please make sure that the only drinks taken onto the pool-side are in sports drinking bottles.
3. Please store bags in lockers or in the group changing room, which is available to us for this purpose. The key is held at the club desk and should be returned there once possessions are locked away.
4. Please do not bring mobile phones onto the pool-side.
5. Please do not teach whilst under the influence of either alcohol or any other substance which may impair your judgement or speed of reaction.
6. Please do not eat on the pool-side.
7. Please do not smoke on the pool-side.
8. Please try to be punctual.
9. Please inform us if you know that you will be unable to attend in order that we may make provision to cover your lessons.
10. ALL teachers must be prepared to enter the water when necessary.
